 May 5 - 7, 2025 (1 - 5pm)

The language of policy and writing for clarity.

Facilitator: Eileen Pease, BA, MEd

Policy Evaluation

February 10 - 11, 2025 (11am - 4pm)
 May 12 - 13, 2025 (11am - 4pm)
 June 23 - 25, 2025 (11am - 4pm)

How is the policy working? Do people understand it? Are there compliance concerns?

Facilitator: Rose Landry

Format | Online

Fee | \$3,400

CERTIFICATE OVERVIEW

Policy is the link between organizational intent and behaviour, and is reflected in what organizations do, and don't do. When clearly articulated, communicated, implemented and managed, policies provide focus and consistency, clarifying intent, and enables organizations to manage expectations. More and more organizations are opting to use documented policy statements and manuals as the primary means of providing that focus and consistency. However, many organizations struggle with what policy is, with when and how it is most effectively developed and applied and with how to articulate it in ways that are relevant, appropriately comprehensive, and understandable. Too often they misstep and the results are policies that have no impact or unintended impacts - policies that aren't equitable, implementable or enforceable.

This certificate takes you from assessing the need for a policy to evaluating results from the policy. Participants will be introduced to strategies by experienced policy practitioners to enable them to lead, manage, support, and influence the policy process to ensure both equity and effectiveness.

Online Courses Fall 2024 - Spring 2025 (Atlantic time).
